

Missionary Meeting Wednesday Night.

The Baptist church was filled to hear that faithful soldier of the cross, J. B. Vinton, present the aspects of his mission field in Burmah. His modest demeanor, gentle manners, and earnestness of soul won all hearts. He bears in his countenance evidence of his Asiatic birth, and of the new birth through the gospel of the Son of God. Having graduated with the brightest honors of his class, and enjoying the confidence of eminent men, he goes forth to relieve his mother and sister, now in Burmah, and to take the place of his lamented father. He goes as an independent man relying upon his friends in this country to support him. His talents give promise of usefulness as great as that of any other man ever sent forth. He has been schooled in poverty to know the worth of money, and will doubtless expend wisely every dollar put in his hands. He has a mechanical genius and a knowledge of several trades. His acquaintance with languages both ancient and modern is extensive. As a speaker he is graceful and persuasive, and his native tongue is as familiar to him as English. His courage, a very important qualification, was tested when a young classmate was drowning. Vinton plunged in after him, and came out of the water at length, unsuccessful, but with the blood gushing from his mouth and nose, in consequence of the violence of his exertions to save his friend. He plunges into Burmah with the same high purpose and heroic resolution. "I cannot not my life dear unto myself," for the cause of the perishing is the spirit which animates him. He will not by God's blessing disappoint our hopes. He felt deeply thankful to the generous friends of all denominations and beliefs, for their response to his appeal; and any who wish to aid him can send their donations through Rev. E. J. Goodspeed, who will forward them to him.

SET UP IN A HURRY.—If our readers will look closely they will perhaps discover a tax list in our paper to-day. It was received by us at half-past seven last night, with the information that it must appear in our paper to-day, in order to make a legal publication, previous to the sitting of the Court. By working all night it has been set up in time; and we have little space left for general news and no time to prepare it. If our readers knew just what kind of a tedious and perplexing job it has been, they would, we are sure, excuse us for the lack of reading matter to-day.

ILLINOIS ELECTION.—Ninety-three counties official, and seven reported, give Lincoln 12,313 majority over Douglas, and 6,240 over all. The convention question is carried by a majority of 24,000.

NORTHERN BOOKS SENT BACK.—Book-sellers of Charleston and Savannah have returned Harper's Weekly and Monthly publications, and a movement is contemplated to return all Northern books, unless publishers are known to be "sound."

FOREIGN.—The Canada brings dates to the 4th. There has been severe fighting in China between the allied French and English and the Chinese. The Tartar forts were attacked and captured. Total British loss 161, including 22 officers.

IT IS true that the French government gave orders to the French Admiral to prevent an attack on Gaeta by sea. It is also true that the Admiral was not under the necessity of communicating these orders to the Sardinian Admiral, as the attack had not been attempted.

WATKINS COUNTY, OFFICIAL.—Lincoln's majority, 2320; Potter's 2370; average on the remainder of the ticket, 2302.

ILLINOIS LEGISLATURE.—The Chicago Tribune announces that the proper certificates have been delivered to the members elect, and the republicans have a majority in both houses.

David Dale Owen, the well known geologist, died at Evansville, Ind., on the 14th inst.

IT IS reported that Mr. Douglas is exceedingly ill at some place in Mississippi.

REFUSING EMIGRANTS.—The mayor of Charleston has notified agents of northern steamship lines that he would not permit the landing of stowaway passengers unless the companies guaranteed their maintenance if they became vagrants. Good thing for the passengers.

THE schools of Cincinnati cost, during the past year, \$316,217.46, a sum that shows the liberal views entertained in that city on the question of popular education.

AN OLD STEAMER RAISED.—Many will recollect the old steamer Nile, which formerly navigated the upper lakes. She was sunk in the harbor of Milwaukee in 1850. After remaining in the water ten years, she has been raised, and towed to a dry dock, where the process of rebuilding will be undergone. The timbers are said to be all sound.

BETS FOR POULTRY.—An English farmer says: "I have used the root of the garden beet (red) as food for poultry for several years; some times in the raw state, a root being thrown down in the poultry-yard; but generally in the cooked state, mixed with the scraps of meat, of meat, potatoes, bread, etc., and in this case the beet is invariably picked out by my poultry with the greatest avidity. I find it has increased the health of the fowls in every instance. I may also say it conduces to an increase in eggs, as also to an improvement in their color."

PHILADELPHIA, Nov. 14. The reported conduct of the captain of the steamer Key Stone State, at Charleston, was much exaggerated. He did not haul down the American and hoist the Palmetto flag, but merely saluted the Carolina flag by dipping his colors.

ARRIVAL OF A LIVING HIPPOPOTAMUS.

The steamer City of Manchester, which arrived at this port on Saturday, brought a live hippopotamus from the Royal Zoological Gardens, London—the tame one alluded to a few days ago in the Express. This hippopotamus is the first and only animal of the kind ever introduced into this country, and will no doubt excite as much curiosity here as it did in England. This morning it was safely and comfortably transferred to the steamer De Soto, which will sail to-day for New Orleans. The trip from Europe does not appear to have at all affected the health or spirits of the beast, and he will reach New Orleans in excellent order.

The hippopotamus was captured something over two years ago, in a lake near the source of the Nile, by an English exploring party, and forwarded to London. Then it was two or three days old, and about the size of a full grown spaniel dog. Now the animal weighs six hundred pounds or more, and is a "lumpy" of a beast.

It was christened "Buckeye," or "Fortunate" by his captors, no doubt to commemorate the lucky escape which they made in getting well off with the "young 'un," without forming an acquaintance with old Mrs. Hippopotamus. He is very docile to his keepers, an Arab named Salama, who has had charge of him since he fell into human custody. Hippo is by no means a comely animal to look at, however great a curiosity by the rarity of its appearance in public.

The head is decidedly of the bull dog style of formation, while the body is as shapeless and uncouth as that of an unfeathered bear. The legs are elephantine in shape and appearance, and the hide seems more like vulcanized gutta percha than any other substance. His notes are hoarse and discordant, being somewhere between the grunt of a hog and the growl of a bear.—New Orleans has been selected as the place for the debut of the hippopotamus on account of its climate. The animal is particularly sensitive to changes of temperature, and could not encounter a winter in our latitude without serious inconvenience, even with unremitting care.—New York Express.

IMPORTANT SPEECH OF VICTOR EMANUEL, TO THE NEAPOLITAN DELEGATION.

—One of the members of the Neapolitan Deputation, who went to present an address to the King of Sardinia, gives the following as the language used by his Majesty on the occasion: "I am not actuated by motives of personal ambition, but we must constitute an Italy. It matters little to me whether I am King of 4,000,000 or 24,000,000 of people; but it is of great importance that a people belonging to the same race and speaking the same language should have the same country, and that that country should be independent. If we only wish it we can be a great people."

Austria continues to threaten me. Not long since I received a note from her through the Emperor of the French which was full of passion. I care little for it.—Austria let slip the favorable moment for attacking me. She is preparing for next spring, but then, with your assistance, I shall have 400,000 men in arms, and Italians, thank God! still know how to fight. The Pope himself now writes to me with kindness. The powers of Europe are displeased; they are putting, but none of them except Austria threatens. We are acting like persons in our homes. Europe will at last recognize that we have justice and right on our side. I am satisfied with Garibaldi; he may be a little conspicuous, but Italy has no nobler son. I have several times ordered to the artillery, but he refused the offer. He thinks he can take Capua by a bayonet charge. Tell your compatriots, gentlemen, that I shall not cease to be for all Italy what I have been for my little Piedmont. I shall perform my duty as king and soldier; let us all do our duty. Let us forward we can say that Italy exists.—Let us hope and persevere.

In one of the sidewalks at Chicago, there is a slab of stone from Joliet, measuring 21x19 feet, and 8 inches thick. It was found lying horizontally in the quarry, ready for use.

PRICE REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

COLUMBIA, S. C. Nov. 15. Six hundred minute men with military and firemen turned out here last night in a grand torch light procession in honor of secession. A meeting was afterwards held at which Ex Speaker Orr made a speech espousing secession &c. was followed by Mr. Keitt and others.

The Gov. of Alabama will issue a call for a state convention to assemble on the 15th of December. He urges the people to prepare for secession.

MILFORDVILLE, Ga., Nov. 15. The leading men of all parties had a conference to-day and unanimously agreed to a state convention. They recommend resistance. The time and mode to be settled by the convention. Good feeling prevails.

RICHMOND, Va. Nov. 15. Gov. Letcher has called an extra session of the legislature for the 17th of January to take into consideration the condition of public affairs and determine calmly and wisely what action is necessary in this emergency.

MILFORDVILLE, Ga., Nov. 15. There was considerable discussion in the senate to-day on the motion referring the million dollars appropriation bill for arms and ammunition to the finance committee. The bill provides that the money be subject to the control of the Governor. Many senators object to the placing of the sword and purse in the same hands, when the supposed regular order and will pass.

A bill was introduced suspending the collection of duties until 1st January. A resolution was introduced giving power to the Governor in case of federal coercion, being employed against a seceding state to employ the effectual military resources of Georgia to resist such coercion. This resolution will pass.

Senator Toombs made a powerful secession speech last night. Mr. Barstow followed urging the establishment of a southern confederacy with sovereignty in the federal power and that all state lines be obliterated.

NEW YORK, Nov. 16. Richmond dispatches state Gov. Wise of Virginia is pronounced insane. Millers at Richmond refused to buy wheat yesterday on any terms. Consequently declined.

Letters received state that the Knights of the Golden Circle are starving in Texas. The presidential vote of Va. is so nearly balanced that only official returns can decide.

WASHINGTON, Nov. 16. A letter from a strong cotton house in Charleston says there is really no unanimity given in South Carolina for secession. The business men and bankers, merchants and all the professional classes are decidedly opposed to secession.

CHARLESTON, Nov. 16. South Carolina will under no circumstances back down from the position she has taken. She is now virtually out of the Union. The U. S. flag is not recognized in any part of the state. Senator Chestnut it is said will preside in the convention.

Baltimore offers Gov. Grant 100 men. Individual applications for military appointments are unnumbered. The mayor owing to the present condition of affairs discharged a large number of laborers employed on the public works. Patrick Hays, an Englishman, was arrested for incendiary remarks, was hurried off on the steamship Marion for New York yesterday. A hundred sword will be presented to-night to A. J. McGrath, who resigned his seat in the U. S. Court.

Caleb Cushing's brig Joseph Gray sails for Liverpool to-morrow. Capt. Plummer says he will bear aloft the Palmetto Lone Star flag.

WASHINGTON, Nov. 15, 1860. An order has been issued by the Navy Department to fit out the steamer of war, Macedonia, at Portsmouth, N. H., for the Home Squadron. The St. Louis and Sabine having nearly completed the usual term of service, are to be withdrawn from it.

It seems that Senator Hammond's resignation is immediate, a letter having been received here directing his personal effects to be forthwith sent to South Carolina. The collector at Beaufort has officially indicated his resignation, being unwilling, he says, to serve under a Republican administration.

It has heretofore been stated that the subject of an address was under Executive consideration, but it now appears that the idea is abandoned. The view of the early meeting of Congress, to whom, by the Constitution, the President is required to give information of the State of the Union.

MACOY, Ga., Nov. 16. The Senate has passed unanimously the bill appropriating one million of dollars, at the discretion of the Governor, for the defense of the State. The joint committee on the state of the republic agreed unanimously to report a bill for calling a convention of the people, with a preamble recommending resistance. It is understood that Gov. Brown, A. H. Stephens, D. V. Judson, D. Stevens, I. R. Cobb, and all other leading men having endorsed the bill, and that it will pass unanimously.

The legislators differ somewhat on the mode of resistance, but the immediate secession men have a large majority. A. H. Stephens spoke at Millidgeville last night, he favored the state convention, demanding of the states which have nullified the fugitive slave law to repeal their acts, and upon their refusal, which was certain, then the south could go out with clean hands.

The crowd called for Mr. Jackson, of Savannah, and a sharp discussion followed. Mr. Jackson speaking strongly for immediate secession. Such is the feeling in Savannah that it is hard work to prevent the populace from seizing upon Fort Pulaski.

CHARLESTON, Nov. 15. Another tremendous demonstration took place to-night to welcome the Charleston delegation.

In the proceedings mayor McBeth, who presided received a despatch from Gen. Bonham announcing that he was out of the union, having resigned his seat in congress. The news was received with a burst of enthusiasm.

THE MARKET. NEW YORK, Nov. 16. Flour receipts 16,000 bbls., market dull heavy to 50 to 100. Receipts wheat 155, 364 bu., market heavy at 2c lower sales 43, 000bu., 118 for good Chicago spring 121a 124, mill call 121a 125, amber western to prime white Canadian.

NELSON WORSHIPPED AS A HEATHEN IDOL.—A letter from Hayti says: "Among the Acut mountains there has been found, in an old house, a bust of Lord Nelson. It is of white marble, somewhat stained by time and neglect. Nelson is represented in his costume of admiral, and bears on his breast five decorations. One, in commemoration of the battle of Aboukir, has the inscription: 'Bear-Admiral Lord Nelson of the Nile.' Another medal bears the words: 'Almighty God has blessed his Majesty's glory.' This bust, interesting in its artistic and historical association, was found on an altar devoted to the fetish worship, where, for half a century, it has been revered as the Deity of the mountain crevices. The names of the sculptors were 'Creans' and 'Leahy, of Sambeh.' Thus, for fifty years a bust of the English admiral has been worshipped as a heathen idol."

COMICALITIES OF THE LAW.—A while since a well known lawyer in Court street, Boston, brought a suit for a citizen of New York on a note of hand of citizen of Massachusetts, which the latter insisted was discharged by a discharge he had obtained under our insolvent laws. The case was the only point in the law, whether a discharge in our insolvent court affected at all a note held by a foreign creditor of the insolvent. While that question was pending before the full bench of the Supreme Court, our attorney was retained for the defense in a precisely similar case. There he was then, on both sides of the same question, and hence he felt quite jovial; for whichever way the point was decided he was sure of winning in one case. In due time judgment was entered in the first case against him, but he was sustained in that hour of trial with the fact that the other case was without doubt won.

After some considerable delay the full bench entered judgment in the other case, and lo, and behold it was against him there, too. The exact logical grounds on which these two cases were decided have never transpired, since by some mysterious oversight neither of them have ever been reported.—Boston Transcript.

A strong-minded and strong-limbed woman, named Paulina G. Roberts, has undertaken to cultivate a farm in Pekin, Niagara county, N. Y., with the assistance of five daughters. They have been at it over a year. The N. Y. Tribune prints a letter from the mother of these strapping daughters, in which she says they have succeeded beyond their expectations. They have under cultivation five acres of sowing corn; 30 of Hungarian grass; 5 of spruce wheat; 8 of carrots; and 60 of oats, besides patches of planted corn, onions, &c. They have also a "small dairy" of 19 cows. All the labor required for the prosecution of this extensive business, the writer says, has been performed by these six women, with the assistance of a hired girl of sixteen, and about seven days' work from men.

A good story is related of Lincoln, our future president, who was usually so unassuming with some companions, when they came across a river, when he asked one of his comrades what the name of that river was? "That," they called the "weeping waters."

"Do you remember," said Lincoln, "the falls of Minne-haha in Minnesota?" Well I think this stream ought to be called Minne-boohoo? We think that stream was called Minneboohoo after that.

SET UP IN A HURRY.—If our readers will look closely they will perhaps discover a list in our paper to-day. It was received by us at half-past seven last night, with the information that it must appear in our paper to-day, in order to make a legal publication, previous to the sitting of the Court. By working all night it has been set up in time; and we have little space left for general news and no time to prepare it. If our readers knew just what kind of a tedious and perplexing job it has been, they would, we are sure, excuse us for the lack of reading matter to-day.

ILLINOIS ELECTIONS.—Ninety-three counties official, and seven reported, give Lincoln 12,313 majority over Douglas, and 6,240 over all. The convention question is carried by a majority of 24,000.

NORTHERN BOOKS SENT BACK.—Book-sellers of Charleston and Savannah have returned Harper's Weekly and Monthly publications, and a movement is contemplated to return all Northern books, unless publishers are known to be "sound."

FOREIGN.—The Canada brings dates to the 4th. There has been severe fighting in China between the allied French and English and the Chinese. The Tartar forts were attacked and captured. Total British loss 161, including 22 officers.

It is true that the French government gave orders to the French Admiral to prevent an attack on Gaeta by sea. It is also true that the Admiral was not under the necessity of communicating these orders to the Sardinian Admiral, as the attack had not been attempted.

WALWORTH COUNTY, OFFICIAL.—Lincoln's majority, 2320; Potter's 2370; average on the remainder of the ticket, 2392.

It is reported that Mr. Douglas is exceedingly ill at some place in Mississippi.

REFUSING EMIGRANTS.—The mayor of Charleston has notified agents of northern steamship lines that he would not permit the landing of steerage passengers unless the companies guaranteed their maintenance if they became vagrants. Good thing for the passengers.

The schools of Cincinnati cost, during the past year, \$316,217.46, a sum that shows the liberal views entertained in that city on the question of popular education.

AN OLD STEAMER RAISED.—Many will recollect the old steamer Nile, which formerly navigated the upper lakes. She was sunk in the harbor of Milwaukee in 1850. After remaining in the water ten years, she has been raised, and towed to a dry dock, where the process of rebuilding will be undergone. The timbers are said to be in sound.

BRETS FOR POULTRY.—An English farmer says: "I have used the root of the garden beet (red) as food for poultry for several years; some times in the raw state, a root being thrown down in the poultry-yard; but generally in the cooked state, mixed with the scraps of meat, of meat, potatoes, bread, etc., and in this case the beet is invariably picked out by my poultry with the greatest avidity. I find it has increased the health of the fowls in every instance. I may also say it conduces to an increase in eggs, as also to an improvement in their color."

PHILADELPHIA, Nov. 14. The reported conduct of the captain of the steamer Key Stone State, at Charleston, was much exaggerated. He did not haul down the American and hoist the Palmetto flag, but merely saluted the Carolina flag by dipping his colors.

ARRIVAL OF A LIVING HIPPOPOTAMUS.—The steamer City of Manchester, which arrived at this port on Saturday, brought a live hippopotamus from the Royal Zoological Garden, London—the same one alluded to a few days ago in the Express. This hippopotamus is the first and only animal of the kind ever introduced into this country, and will no doubt excite as much curiosity here as it did in England. This morning it was safely and comfortably transferred to the steamer De Soto, which will sail to-day for New Orleans. The trip from Europe does not appear to have at all affected the health or spirits of the beast, and he will reach New Orleans in excellent order.

The hippopotamus was captured something over two years ago, in a lake near the source of the Nile, by an English exploring party, and forwarded to London. Then it was two or three days old, and about the size of a full grown spaniel dog. Now the animal weighs six hundred pounds or more, and is withal, a "lump" of a beast. He was christened Buechet, or "Fortunate" by his captors, no doubt to commemorate the lucky escape which they made in getting well off with the "young 'un," without forming an acquaintance with old Mrs. Hippopotamus. He is very docile to his keepers, an Arab named Salama, who has had charge of him since he fell into human custody. Hippo is by no means a comely animal to look at, however great a curiosity by the rarity of its appearance in public. The head is decidedly of the bull dog style of formation, while the body is shapeless and uncouth as that of an unlicked bear cub. The legs are elephantine in shape and appearance, and the hide seems more like vulcanized gutta percha than any other substance. His notes are hoarse and discordant, being somewhere between the grunt of a hog and the growl of a bear.—New Orleans has been selected as the place for the debut of the hippopotamus on account of its climate. The animal is particularly sensitive to changes of temperature, and could not encounter a winter in our latitude without serious inconvenience, even with unremitting care.—New York Express.

IMPORTANT SPEECH OF VICTOR EMANUEL, TO THE NEAPOLITAN DELEGATION.—One of the members of the Neapolitan deputation, who went to present an address to the King of Sardinia, gave the following as a language used by his Majesty on the occasion: "I am not actuated by motives of personal ambition, but we must constitute an Italy. It matters little to me whether I am King of 4,000,000 or 24,000,000 of people; but it is of great importance that a people belonging to the same race and speaking the same language should have the same country, and that that country should be independent. If we only wish it we can be a great people."

Austria continues to threaten me. Not long since I received a note from her through the Emperor of the French which was full of passion. I care little for it.—Austria let slip the favorable moment for attacking me. She is preparing for next spring, but then, with your assistance, I shall have 400,000 men in arms, and Italians, thank God I still know how to fight. The Pope himself now writes to me with kindness. The powers of Europe are displeased; they are pointing, but none of them except Austria threatens. We are acting like persons in our homes. Europe will at last recognize that we have justice and right on our side. I am satisfied with Garibaldi; he may be a little conspicuous, but Italy has no nobler son. I have several times offered to give him artillery, but he refused the offer. He thinks he can take Capua by a bayonet charge. Tell your compatriots, gentlemen, that I shall not cease to be for all Italy what I have been for my little Piedmont. I shall perform my duty as king and soldier; let us all do all our duty Italians. Bear in mind that we do not yet possess the key of our house; but from this day forward we can say Italy exists.—Let us hope and persevere.

IN one of the sidewalks at Chicago, there is a slab of stone from Joliet, measuring 21 x 19 feet, and 8 inches thick. It was found lying horizontally in the quarry, ready for use.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

COLUMBIA, S. C. Nov. 15. Six hundred minute men with military and firemen turned out here last night in a grand torch light procession in honor of secession. A meeting was afterwards held at which Ex Speaker Orr made a speech espousing secession &c. was followed by Mr. Keitt and others.

The Gov. of Alabama will issue a call for a state convention to assemble on the 6th of December. He urges the people to prepare for secession.

MILLEDGEVILLE, Ga., Nov. 15. The leading men of all parties had a conference to-day and unanimously agreed to a state convention. They recommended resistance. The time and mode to be settled by the convention. Good feeling prevails.

RIEMOND, Va. Nov. 15. Gov. Letcher has called an extra session of the legislature for the 7th of January to take into consideration the condition of public affairs and determine calmly and wisely what action is necessary in this emergency.

MILLEDGEVILLE, Ga. Nov. 15. There was considerable discussion in the senate to-day on the motion referring the million dollars appropriation bill for arms and ammunition to the finance committee. The bill provides that the money be subject to the control of the Governor. Many senators object to the placing of the sword and purse in the same hands, when the supposed reference failed. The bill will proceed in regular order and will pass.

A bill was introduced suspending the collection of debts until 1861.—A resolution was introduced giving power to the Governor in case of federal coercion, being employed against a seceding state to employ the effectual military resources of Georgia to resist such coercion. This resolution will pass.

Senator Toombs made a powerful secession speech last night. Mr. Barstow followed urging the establishment of a southern confederacy with sovereignty in the federal power and that all state lines be obliterated.

NEW YORK, Nov. 16. Richmond despatches state Gov. Wise of Virginia is pronounced insane. Millers at Richmond refused to buy wheat yesterday on any terms. Consequently declined.

Letters received state that the Knights of the Golden circle are starving in Texas. The presidential vote of Va. is so nearly balanced that only official returns can decide.

WASHINGTON NOV. 16. A letter from a strong cotton house in Charleston says there is really no unanimity given in South Carolina for secession.—The business men and bankers, merchants and all the professional classes are decidedly opposed to secession.

CHARLESTON, Nov. 16. South Carolina will under no circumstances back down from the position she has taken. She is now virtually out of the Union. The U. S. flag is not recognised in any part of the state. Senator Chestnut it is said will reside in the convention.

Baltimore offers Gov. 'Gist 100 men.—Individual applications for military appointments are numberless. The mayor offering to the present condition of affairs discharged a large number of laborers employed on the public works. Patrick Hays, an Englishman, was arrested for incendiary remarks, was hurried off on the steamship Marion for New York yesterday. A handsome sword will be presented to-night to A. J. McGrath, who resigned his seat in the U. S. court.

Caleb Cushing's brig Joseph Gray sails for Liverpool to-morrow. Capt. Plummer says he will bear aloft the Palmetto Lone Star flag.

WASHINGTON, Nov. 15, 1860. An order has been issued by the Navy Department to fit out the sloop of war, Macedonia, at Portsmouth, N. H., for the Home Squadron. The St. Louis and Sabine having nearly completed the usual term of service, are to be withdrawn from it.

It seems that Senator Hammon's resignation is immediate, a letter having been received here directing his personal effects to be forthwith sent to South Carolina.

The collector at Beaufort has officially indicated his resignation, being unwilling, he says, to serve under a Republican administration.

It has heretofore been stated that the subject of an address was under Executive consideration, but it now appears that the idea is abandoned, in view of the early meeting of Congress, to whom, by the Constitution, the President is required to give information of the State of the Union.

MACON, Ga., Nov. 16. The Senate has passed unanimously the bill appropriating one million of dollars, at the discretion of the Governor, for the defense of the State. The joint committee on the state of the republic agreed unanimously to report a bill for calling a convention of the people, with a preamble, recommending resistance. It is understood that Gov. Brown, A. H. Stephens, D. V. Judson, D. Stevens, I. R. Cobb, and all other leading men having endorsed the bill, and that it will pass unanimously.

The legislators differ somewhat on the mode of resistance, but the immediate secession men have a large majority. A. H. Stephens spoke at Milledgeville last night, he favored the state convention, demanding of the states which have nullified the fugitive slave law to repeal their acts, and upon their refusal, which was certain, then the south could go out with clean hands.

The crowd called for Mr. Jackson, of Savannah, and a sharp discussion followed. Mr. Jackson speaking strongly for immediate secession. Such is the feeling in Savannah that it is hard work to prevent the populace from seizing upon Fort Pulaski.

CHARLESTON, Nov. 15. Another tremendous demonstration took place to-night to welcome the Charleston delegation.

In the proceedings mayor McBeth, who presided received a despatch from Gen. Bonham announcing that he was out of the union, having resigned his seat in congress. The news was received with a burst of enthusiasm.

The Market. NEW YORK, Nov. 16. Flour receipts 16000 bbls, market dull heavy to 54 1/2 lower. Receipts wheat 155,364 bu. market heavy at 2 1/2 lower sales 43,000bu., 118 for good Chicago spring 12 1/2-124, Mil. club 124 1/2-125, amber western to prime white canadian.

MILWAUKEE, Nov. 16. Flour quiet and no sales of importance, we quote country brands as extra spring at 10.00-10.25. At present market closed dull and inactive. At another decline of 1c, sellers offered pretty freely at 78 for No. 2 and 80 for No. 1. The money market continues stringent and most of the wheat sold is deliverable next week, sales are as follows: 1750 bu. No. 2 in store 79, 1750 bu. No. 1 83, 350 bu. rejected in store 74, 10,000 bu. No. 2 and 1 deliverable next Monday at 76a80 and 10,500 bu. No. 2 in store 78.

The Board of Trade of Milwaukee has subscribed \$400 for the Kansas Famine Fund.

NELSON WORKSHIPP AS A HEATHEN IDOL.—A letter from Hayti says: "Among the Acol mountains there has been found, in an old house, a bust of Lord Nelson.—It is of white marble, somewhat stained by time and neglect. Nelson is represented in his costume of admiral, and bears on his breast five decorations. One, in commemoration of the battle of Aboukir, has the inscription: 'Rear-Admiral Lord Nelson of the Nile.' Another medal bears the words: 'Almighty God has blessed his Majesty's glory!' This bust, interesting in its artistic and historical association, was found on an altar devoted to the *fetich* worship, where, for half a century, it has been revered as the Deity of the mountain streams. The names of the sculptors were 'Coale and Lealy, of Sambeth.' Thus, for fifty years a bust of an English admiral has been worshipped as a heathen idol!"

COMPLICITIES OF THE LAW.—A while since a well known lawyer in Court street, Boston, brought a suit for a citizen of New York on a note of hand of a citizen of Massachusetts, which the latter insisted was discharged by a discharge he had obtained under our insolvent laws. That was the only point in the law, whether a discharge in our insolvent court affected at all a note held by a foreign creditor of the insolvent. While that question was pending before the full bench of the Supreme Court, our attorney was retained for the defense in a precisely similar case. There he was then, on both sides of the same question, and hence he felt quite jovial; for whichever way the point was decided he was sure of winning in one case. In due time judgment was entered in the first case against him, but he was sustained in that hour of trial with the fact that the other case was without doubt won.

After some considerable delay the full bench entered judgment in the other case, and lo, and behold it was against him there, too. The exact logical grounds on which these two cases were decided have never transpired, since by some mysterious oversight neither of them have ever been reported.—Boston Transcript.

A strong-minded and strong-limbed woman, named Paulina G. Roberts, has undertaken to cultivate a farm in Pekin, Niagara county, N. Y., with the assistance of five daughters. They have been at it over a year. The N. Y. Tribune prints a letter from the mother of these strapping daughters, in which she says they have succeeded beyond their expectations. They have under cultivation five acres sowed corn; 30 of Hungarian grass; 6 of spring wheat; 8 of carrots; and 60 of oats; besides patches of planted corn, onions, &c. They have also a "small dairy" of 19 cows. All the labor required for the prosecution of this extensive business, the writer says, has been performed by these six women, with the assistance of a hired girl of sixteen, and about seven days' work from men.

A good story is related of Lincoln, our future president, who was traveling in Kansas with some companions, when they came across a river, when he asked one of his comrades what the name of that river was? "That, why that is called the 'weeping waters'."

"Do you remember," said Lincoln, "the falls of Minne-haha in Minnesota? Well I think this stream ought to be called *Minneboho*?" We think that stream was called Minnebohoooloo after that.
